

TAKE LEAN MANUFACTURING TO THE NEXT LEVEL

In Manufacturing, you need to maximize every dollar. Every effort. Every resource. Time to replace delays, downtime and errors with speed, automation, visibility, and efficiency.

43%

Manufacturers are adding more made-to-order and engineer-to-order products to meet customer demand.

64%

Manufacturers rank speed of delivery as a top pressure from customers.

53%

Made changes to their operations in order to save costs.

3 Ways to stay ahead

SEE WHICH GENERATION LEADS THE WAY

LEGACY MOBILE DEVICES

MODERN MOBILE DEVICES

1

Lower Training & Turnover Costs

Green screen requires more training time

All-touch screen reduces training time

Outdated UX requires more steps to accomplish a task

15% Productivity increase with an intuitive UX

2

Avoid the Expense of Downtime

Leaves you vulnerable to downtime

Gain the foresight to preempt problems

Lacks instant operational visibility

Track and trace raw material to finished goods and gauge PLC metrics from anywhere on the plant floor

Forces you to be reactive instead of proactive

Eliminate interruptions with intel into every operation, asset, process and machine

3

Eliminate Costly Delays

Sluggish workflows

Increase efficiency by enabling hands-free work via speech-directed apps

Manual work is time-consuming, error-prone and costly

Save time by automatically populating fields with text, signatures, graphics, barcodes and images simultaneously captured in a single scan

Communication barriers between devices and networks

Unified communication across all work stations with instant voice

Using multiple types of devices is inefficient

Consolidates essential tools in one device: phone, camera and computer

Legacy platforms can't automatically notify manufacturers of quality and compliance errors

Real-time push notifications on key metrics increase quality and compliance

Say goodbye to bottle necks

COUNT ON ZEBRA FOR A SMOOTH TRANSITION

CONSULTING SERVICES

Get expertise to create a plan for success

MIGRATING SERVICES

Migrate quickly and smoothly with less cost and risk

ASSET VISIBILITY SERVICES

Gain device insight to gain device uptime and ROI

Everything you need to help you mitigate delays, downtime, and errors that drain resources.

READY TO BECOME A LEADER IN LEAN MANUFACTURING?

See how the next generation of workforce mobility can help you transform your business.
